Work Experience

Belinvest bank, Data Scientist, full time   *October 2021 - Present*
Melius soft, Data Scientist, part time   *November 2022 - Present*

- Building and deploying credit scoring models;
- Extract data from multiple sources - databases, S3, XML, JSON;
- Demonstrated the value of using databases over excel uploads, highlighting benefits such as improved data integrity and streamlined processes;
- Automated reports generation using the Dash framework.

Skills

- Programming Languages:
    - Python (pandas, numpy, sklearn, torch, matplotlib, plotly, dash, fastapi);
    - SQL (PostgreSQL, complex queries, basic administration);
    - Bash (basic file manipulations).
- Tools: Linux, Git, Docker.
- Machine Learning Algorithms: Logistic regression, Support Vector Machines (SVM), Decision Trees, Baggings, Boostings.

Education

Belarusian State Economic University   *September 2018 - June 2022*
Faculty of Digital Economy
Economic Cybernetics
Bachelor's degree

Karpov courses   *August 2023 - Present*
Start ML
